

FOCUS

EDUCATIONAL
& SOCIAL

LOCATION

KEMISE, ETHIOPIA

LEADER

MULUGETA ASHAGRE

OUR MINIMUM ANNUAL TARGET

£3000

Mulugeta's team have opened a new kindergarten of around 50 children in Kemise which is situated in a rural area in NE Ethiopia. This is a very poor area and the vision is to increase the educational opportunities within the community. Shared Hope is committed to provide resource for teachers' salaries and school materials. The concept of pre-school education is totally new in this area but will hopefully help in the general development of the community. Up until now work with children has been focused in urban areas and in particular in Addis Ababa where they have worked closely with Compassion International supporting the education of a large number of poor children. This new initiative in a rural area represents a development of their vision to help needy children. The infrastructure in the area where the team are moving to is very basic with a very poor road system. This fact alone is a major hindrance to economic and educational development.

Mulugeta Ashagre is a highly respected Christian leader based in Addis Ababa. He and his team have been involved in church planting for 25 years and oversee the training of Christian leaders and the development of the holistic ministry within the churches.
