

FOCUS
EDUCATIONAL
& SOCIAL

LOCATION
ANGOCHÉ, MOZAMBIQUE

OUR MINIMUM
ANNUAL TARGET
£2500

The aim of this project is to teach adults to read and write in Koti thereby empowering a generation of illiterate people, enabling them to get better jobs and improving their family life. The primary beneficiaries will be the adults who learn to read and their families. If parents can read and their children can read it creates a quite different environment at home. It becomes a place of stimulation and learning. The community is extremely poor and people are poorly educated.

The benefits accruing from being able to read and write are life transforming. When adults become literate their attitude to education radically changes and this programme which is for both adults and children is directed at changing hearts and minds in the whole area of education within this community as well as equipping the students with a foundation on which they can build that will enable them to better support themselves and their families.
